The following provisions in this Article 9 no. 2 to 8 apply:

2. To discharge its liability for shown quality defects, SAP will remedy the defects either by providing to Partner a new Software version that is free of defects or, at its election, by eliminating the defects. SAP may also eliminate a defect by indicating to Partner a reasonable way to avoid the effect of the defect. To discharge its liability for shown defects in title, SAP will remedy the defects either by procuring for Partner the legally incontestable right under license to use the Software or, at SAP's election, providing equivalent replacement or altered Software. Partner must accept a new software version that is functionally compliant unless it would be unreasonable to require Partner to do so.
3. If Partner sets a reasonable limited additional time period for SAP to remedy the defect and SAP finally fails to do so in that time, Partner has the right to rescind the contractor reduce the remuneration. Subject to the exclusions and limitations in Article 10, SAP undertakes to compensate for loss or wasted anticipatory expenditure caused by a defect.
4. The time bar for claims under no 1 to 3 comes into effect one year after delivery of the Software. This also applies to rights arising out of rescission or reduction of remuneration under no. 3, sentence 1. The reduction in the time before the time bar comes into effect does not apply in cases of SAP's intent or gross negligence, of fraudulent concealment of a defect, of personal injury, or of defect in title to which the Bulgarian Obligations and contracts act applies.
5. The time bar for claims for defects in works or services to eliminate or avoid a defect provided in discharge of defect liability also comes into effect at the time specified in no. 4. The time bar comes into effect no earlier than three months after the end of the toll.
6. If SAP provides defect identification or elimination works or services without being under obligation to do so, SAP is entitled to a specific remuneration. Such services are provided subject to SAP's General Terms and Conditions for Consulting and Services and SAP is entitled to remuneration for them in accordance with the relevant SAP list of prices and conditions. This applies in particular to any reported quality defect that is not reproducible or not imputable to SAP or in cases where the Software is not used in compliance with its Documentation. Without prejudice to the generality of the foregoing, SAP is entitled to remuneration for additional work it does to eliminate any defect that arises out of Partner's failure to properly discharge its duty to collaborate, inappropriate operation of the Software, or failure to take the SAP services that SAP recommends.
7. If a third party claims that the exercise of the license granted to Partner under this SAP PartnerEdge Service Model infringes its rights, Partner must fully inform SAP in writing without delay. If Partner ceases to exercise its license rights granted hereunder to mitigate loss or for other just reason, Partner must notify the third party that such cessation does not imply any recognition of the claimed infringement. Partner will conduct the dispute with the third party both in court and out of court only in consultation and agreement with SAP or authorize SAP to assume sole conduct of the dispute.
8. If SAP fails to properly perform any of its duties herein that is not within the ambit of defect liability, or is otherwise in breach, Partner must give written notice of the failure or breach to SAP and fix a limited additional time period during which SAP has the opportunity to properly perform its duty or otherwise rectify the situation.   - b) In other cases: SAP is not liable except for breach of a major obligation and only up to the limits in Article 10 (Liability) no. 1 c). A breach of a major obligation in the meaning of this is assumed where the duty itself is a necessary prerequisite for the contractual performance, or where the breach of the relevant duty jeopardizes the purpose of the contract and where Partner could legitimately rely upon its fulfillment.
  - c) Liability in cases under Article 10 (Liability) no. 1 b) is limited to € 100,000 per incident and limited in total to € 500,000 for all claims arising out of this Service Model.
