

SAP Account Reconciliation & Automation by BlackLine, premier edition Supplemental Terms and Conditions

This Supplement is part of an agreement for certain SAP Cloud services between SAP and Customer and apply solely to SAP Account Reconciliation & Automation by BlackLine, premier edition (the "Cloud Service"). Any documents referenced in this Supplement are available upon request.

- 1. CLOUD SERVICE.** The Cloud Service extends the SAP Account Reconciliation & Automation offering to allow accountants to match data from multiple data sources, automatically reconcile high-volume transactions, automatically create, validate, and post journals from multiple sources, automate task and job scheduling, execution, and monitoring of close activities, and more.
- 2. FEES.** The Usage Metric for the Cloud Service is Transactions in blocks of 100,000. Transactions are messages, jobs, or tasks processed by the Cloud Service monthly. For the Cloud Service, Transactions are the total number of line items of any transaction type managed by the Cloud Service (e.g., Bank Transactions, POS Transactions, Credit Card Transactions, Journal Entry Lines, etc.).
- 3. ADDITIONAL TERMS**
 - 3.1. Tenants.** The Cloud Service includes one productive tenant and one non-productive tenant. The non-productive tenant may only be used for non-productive development and testing, and may not be used to process personal data. Customer may subscribe to additional test tenants. The Usage Metric for test tenants is Tenants. A Tenant means a customer-specific instance of the Cloud Service.
