

**SAP Account Substantiation and Automation by BlackLine, transaction matching option
Supplemental Terms and Conditions**

This Supplement is part of an agreement for certain SAP Cloud services between SAP and Customer and apply solely to SAP Account Substantiation and Automation by BlackLine, transaction matching option (the "Cloud Service"). Any documents referenced in this Supplement are available upon request.

1. CLOUD SERVICE

The Cloud Service allows accountants to match data from multiple data sources and automatically reconcile high-volume transactions.

2. FEES

The Usage Metric for the Cloud Service is the number of Transactions in blocks of 100,000. For the Cloud Service, Transactions are the total number of line items of any transaction type managed by the Cloud Service (e.g., Bank Transactions, POS Transactions, Credit Card Transactions, Journal Entry Lines, etc.).

3. ADDITIONAL TERMS

- 3.1. **Tenants.** The Cloud Service includes one productive tenant of Transactions and one non-productive tenant of Transactions. The non-productive tenant may only be used for non-productive development and testing, and may not be used to process personal data. Customer may subscribe to additional test tenants via separate material.
