

**SAP Data Warehouse Cloud  
Supplemental Terms and Conditions**

This Supplement is part of an Agreement between SAP and Customer and applies solely to the SAP Data Warehouse Cloud Cloud Service.

**1. DEFINITIONS**

“**Contract Month**” means a period starting on the day in a calendar month that is the same numerically corresponding day as the Agreement Effective Date and ending on the numerically corresponding day in the next calendar month, except that if there is no numerically corresponding day in the calendar month in which that period is to end, that period shall end on the last day in that calendar month.

“**Capacity Service**” means the services identified in Attachment A of this Supplement, as may be updated by SAP from time-to-time.

“**Capacity Unit**” is a ratio of services consumed via the Cloud Service and is calculated as set forth in this Supplement.

“**Capacity Units of Measure**” is used to measure use of a Capacity Service (e.g., GB).

“**Capacity Unit Value**” means the numerical value assigned to a specific Capacity Service that, when multiplied by the number of used Capacity Units of Measure, results in the consumed Capacity Units.

**2. CLOUD SERVICE**

2.1. The Cloud Service includes 1 productive tenant.

2.2. Having a productive tenant, Customer may subscribe to a non-productive tenant (“**SAP Data Warehouse Cloud, test tenant**”) for additional fee. Where the Customer has subscribed to SAP Data Warehouse Cloud, test tenant, the terms, set forth in this Supplement for the Cloud Service (including the Usage Metric), shall apply for SAP Data Warehouse Cloud, test tenant.

2.3. SAP Data Warehouse Cloud, test tenant, may only be used for non-productive development and testing, and may not be used to process Personal Data. Accordingly, the DPA referenced in the Order Form does not apply to SAP Data Warehouse Cloud, test tenant.

**3. FEES**

3.1. The Usage Metric for the Cloud Service is Capacity Unit per Contract Month. Each Capacity Service specified in Attachment A has a corresponding Capacity Unit of Measure and Capacity Unit Value. To calculate the number of Capacity Units consumed through use of a Capacity Service, the total amount of Capacity Units of Measure used during the Contract Month is multiplied by the Capacity Unit Value to arrive at the number of Capacity Units consumed by that Capacity Service. Customer may consume Capacity Units up to the total amount stated in the Order Form for each Contract Month. Unused Capacity Units may not be carried over into any subsequent Contract Month. For example, a Capacity Service with a Capacity Unit of Measure in GB of storage for which 300 GB of storage was used Contract Month, with a corresponding Capacity Value of 52, would result in the consumption of 104 Capacity Units.

**4. ADDITIONAL TERMS**

4.1. **SAP Data Integration.** The Cloud Service shall not access, directly or indirectly, a third-party database(s) licensed under a runtime license from SAP or its Affiliates or any of their respective resellers or distributors, except communication (including data transfers) via application-level APIs between the Cloud Service and software applications, running on such third-party database.

4.2. **On-premise Components.** The Cloud Service includes the optional, limited use of the on-premise component, **SAP Landscape Transformation Replication Server**, which use is limited solely to loading data into the Cloud Service.

**ATTACHMENT A**  
**To**  
**SAP Data Warehouse Cloud Supplemental Terms and Conditions**  
**SAP Data Warehouse Cloud**

<b>Capacity Service</b>	<b>Capacity Unit (CU) of Measure</b>	<b>Capacity Unit Value</b>
Compute	64GB Memory per Contract Month **	2124.00
Storage	256GB Solid State Disk Storage per Contract Month	52.00
Data Lake	5TB of Data Lake Storage (includes Data Lake Compute) per Contract Month	2800.00
BW Bridge*	128 GB of Storage (includes SAP BTP, ABAP environment, runtime and Compute) per Contract Month	1700.00

**SAP Data Warehouse Cloud, test tenant**

<b>Capacity Service</b>	<b>Capacity Unit (CU) of Measure</b>	<b>Capacity Unit Value</b>
Compute	64GB Memory per Contract Month **	2124.00
Storage	128GB Solid State Disk Storage per Contract Month	26.00
Data Lake	5TB of Data Lake Storage (includes Data Lake Compute) per Contract Month	2800.00
BW Bridge*	128 GB of Storage (includes SAP BTP, ABAP environment, runtime and Compute) per Contract Month	1700.00

\* SAP BTP, ABAP environment, runtime is a cloud-optimized ABAP platform that serves as a development and runtime environment for SAP BW Bridge, utilizing the service framework of SAP Business Technology Platform (BTP). BTP, ABAP environment, runtime may only be used with BW Bridge.

For information on data center availability for the Capacity Services, please visit the SAP Trust Center.

\*\* Size of a Memory per Contract Month may vary dependent on the Subprocessor.
