This Supplement is part of an Agreement for Cloud Services between SAP and Customer and applies only to SAP Enterprise Product Development Cloud Service.

1. USAGE METRIC.

1.1. The Usage Metric for the Cloud Service is Capacity Units. Capacity Units means the number of units consumed by the usage of the Cloud Service. All capabilities are metered in Capacity Units according to the following table:

Capability	Metric	Multiplier (capacity units / metric)	Key Entitlements and Prerequisites
Application Capabilities			
Engineering	User	110	
Collaboration, standard	User	20	1 GB document storage per user
Collaboration, professional	User	110	Entitles also to one collaboration, standard user
Visualization, standard	User	20	
Visualization, professional	User	130	0.05 compute node and 5 GB relational storage
Intelligent Handover	User	200	
Enterprise Product Structure	User	200	
Product Data Integration	User	200	Requires Enterprise Product Structure user
Specification Management	User	200	
Formulation	User	200	Requires Specification Management user
Insights	User	15	
Optional Infrastructure Capabilities			
Document Storage	Block of 100 GB storage	410	100 GB document storage

Capability	SaaS Application Metric	Capacity Units per Metric	Prerequisites
Interface to AutoCAD	User	200	- Enterprise Product Structure - Product Data Integration
Interface to Inventor	User	250	- Enterprise Product Structure - Product Data Integration
Interface to Solidworks	User	250	- Enterprise Product Structure - Product Data Integration
Interface to Solid Edge	User	250	- Enterprise Product Structure - Product Data Integration

2. ADDITIONAL ENTITLEMENTS

2.1 Cloud Service contains entitlements for:

Service	Number Of Users	Number Of Connections / Calls	Remark
SAP Workflow Service	30 users	--	--
SAP Build Work Zone Advanced Edition	500 users	50 connections	--
SAP Build Work Zone Standard Edition	500 users	50 connections	--
SAP Business Process Automation Advanced User	20 users	--	Part of Collaboration professional
SAP Business Process Automation Standard User	500 users	--	Part of Collaboration standard
SAP Business Process Automation API Calls	--	150 K calls	Part of Collaboration professional
SAP Cloud Application Studio	30 users		Part of Collaboration standard
