

SAP SERVICES AND CONDITIONS

SAP STANDARD SUPPORT

This Schedule is hereby annexed to and made a part of the Agreement specified above. This Schedule governs the provision of support services by SAP as further defined herein ("**SAP Standard Support**") for all software licensed by Customer under the Agreement (hereinafter collectively referred to as the "Standard Support Solutions"), excluding software to which special support agreements apply exclusively.

1. Definitions

- 1.1 "Production System" shall mean a live SAP system used for normal business operations and where Customer's data is recorded.
- 1.2 "Local Office Time" shall mean regular working hours (8.00 a.m. to 6.00 p.m.) during regular working days, in accordance with the applicable public holidays observed by SAP's registered office.
- 1.3 "Initial Term" equals the remainder of the current calendar year plus the following full calendar year, except in cases where the support agreement starts on January 1st of a respective calendar year, in which case the Initial Term will run until December 31st of the respective calendar year.

2. Scope of SAP Standard Support

Customer may request and SAP shall provide, to such degree as SAP makes such services generally available in Hungary SAP Standard Support services. SAP Standard Support currently includes:

Continuous Improvement and Innovation

- New software releases of the licensed Standard Support Solutions, as well as tools and procedures for upgrades.
- Support packages - correction packages to reduce the effort of implementing single corrections. Support packages may also contain corrections to adapt existing functionality to changed legal and regulatory requirements.
- For releases of the SAP Business Suite 7 core applications (starting with SAP ERP 6.0 and with releases of SAP CRM 7.0, SAP SCM 7.0, SAP SRM 7.0 and SAP PLM 7.0 shipped in 2008), SAP may provide enhanced functionality and/or innovation through enhancement packages or by other means as available. During mainstream maintenance for an SAP core application release, SAP's current practice is to provide one enhancement package or other update per calendar year.
- Technology updates to support third-party operating systems and databases.
- Available ABAP source code for SAP software applications and additionally released and supported function modules.
- Software change management, such as changed configuration settings or Standard Support Solutions upgrades, is supported for example with content, tools and information material .

Incident Handling

- SAP Notes on SAP's Customer Support Website document software malfunctions and contain information on how to remedy, avoid and bypass errors. SAP Notes may contain coding corrections that customers can implement into their SAP system. SAP Notes also document related issues, customer questions, and recommended solutions (e.g. customizing settings).
- SAP Note Assistant - a tool to install specific corrections and improvements to SAP components.
- Global incident handling by SAP for problems related to Standard Support Solutions.
When Customer reports malfunctions, SAP supports Customer by providing information on how to remedy, avoid or bypass errors. The main channel for such support will be the support

infrastructure provided by SAP. Customer may send an incident at any time. All persons involved in the incident resolution process can access the status of the incident at any time. In exceptional cases, Customer may also contact SAP by telephone. Contact details are provided in SAP Note 560499. For such contact (and as otherwise provided) SAP requires that Customer provides remote access as specified in Section 3.2(iii). SAP will commence incident handling on incidents of very high priority (for a definition of priorities, see SAP Note 67739) within 24 hours, 7 days a week provided that the following conditions are met: (i) The incident must be reported in English and (ii) Customer must have a suitably skilled English-speaking employee at hand so that Customer and SAP can communicate if SAP assigns the incident to an overseas SAP support center. If either or both of these conditions are not fulfilled, SAP may not be able to start incident handling or to continue incident handling until these conditions are fulfilled.

- Global 24x7 escalation procedures.

Remote Services

- SAP Standard Support currently includes a choice of one of the following remote services per live installation per calendar year:
 - One GoingLive Check e.g. in case the Customer decides to implement new SAP Software and use it productively;
 - One GoingLive Upgrade Check for an upgrade to a higher release; or
 - One GoingLive OS/DB Migration Check. This OS/DB Migration Check assists the Customer in preparing for a migration of an operating system or database. Migration is the responsibility of the Customer.
- In case of vital alerts reported by SAP EarlyWatch® Alert, up to two (2) SAP EarlyWatch® Checks may be performed per calendar year for a Production System if required.
- A service can consist of one or more Service Sessions.
- In order to meet the requested delivery date for a remote service, the remote service has to be ordered at least two months in advance of the desired remote service delivery date. The right to remote services only exists for a specific installation and is not transferable to other installations.
- Further information and detail about individual remote services can be found in SAP's Customer Support Website at <http://support.sap.com/standardsupport>.

SAP Solution Manager Enterprise Edition under Standard Support

- Use of SAP Solution Manager Enterprise Edition (and any successor to SAP Solution Manager Enterprise Edition provided hereunder) shall be subject to the Agreement and is for the following purposes only under SAP Standard Support: (i) delivery of SAP Standard Support, including delivery and installation, upgrade and maintenance of Standard Support Solutions and (ii) re-active support upon request from Customer, including without limitation application of break fixes (e.g. patches, notes, etc.) and root cause analysis for Standard Support Solutions (iii) management of Standard Support Solutions (including management of the integration, if available, of SAP Standard Support Solutions with SAP Cloud services) using only those scenarios which are defined on SAP's Customer Support Website <http://support.sap.com/usagerights>.
- SAP – in its sole discretion – may update from time to time, on SAP's Customer Support Website under <http://support.sap.com/solutionmanager>, the use cases for SAP Solution Manager Enterprise Edition under SAP Standard Support.
- SAP Solution Manager Enterprise Edition shall only be used for SAP Standard Support during the term of this Schedule subject to the licensed rights for the Software and exclusively for Customer's SAP-related support purposes in support of Customer's internal business operations. The right to use any SAP Solution Manager Enterprise Edition capabilities under SAP Standard Support other than those listed above is subject to a separate written agreement with SAP, even if such capabilities are accessible through or related to SAP Solution Manager Enterprise Edition. SAP Solution Manager must explicitly not be used for third party applications not licensed via SAP or any other components or IT assets operated in conjunction with SAP software.

- In the event Customer terminates SAP Standard Support and receives SAP Enterprise Support in accordance with Section 6, Customer's use of SAP Solution Manager Enterprise Edition shall be governed by the terms and conditions of the SAP Enterprise Support Schedule.
- Customer is entitled to use those SAP databases which are listed on SAP's Customer Support Website that are generally available to all SAP customers together with SAP Solution Manager. This runtime license is limited to the use of the relevant database as underlying database of the SAP Solution Manager and limited to the term of this Schedule.

Other Components, Content and Community Participation

- Monitoring components and agents for systems to monitor available resources and collect system status information of the Standard Support Solutions (e.g., SAP EarlyWatch Alert).
- Administrative integration of distributed systems through SAP Solution Manager Enterprise Edition for the purposes of SAP EarlyWatch Alert
- Content and supplementary tools designed to help increase efficiency, in particular for implementations.
- Access to guidelines via SAP's Customer Support Website, which may include implementation and operations processes and content designed to help reduce costs and risks.
- Participation in SAP's customer and partner community (via SAP's Customer Support Website), which provides information about best business practices, service offerings, etc.

3. Customer's Responsibilities

3.1 SAP Standard Support Program Management

In order to receive SAP Standard Support hereunder, Customer shall designate a qualified English speaking contact within its SAP Customer Center of Expertise ("Customer COE") (the "Contact Person") and shall provide contact details (in particular e-mail address and telephone number) by means of which the Contact Person or the authorized representative of such Contact Person can be contacted at any time. Customer's Contact Person shall be Customer's authorized representative empowered to make necessary decisions for Customer or bring about such decision without undue delay.

3.2 Other Requirements

Customer must further satisfy the following requirements:

- (i) Continue to pay all Standard Support Fees in accordance with the Agreement and this Schedule.
- (ii) Otherwise fulfill its obligations under the Agreement and this Schedule.
- (iii) Provide and maintain remote access via a technical standard procedure as defined by SAP and grant SAP all necessary authorizations, in particular for remote analysis of issues as part of incident handling. Such remote access shall be granted without restriction regarding the nationality of the SAP employee(s) who process incidents or the country in which they are located. Customer acknowledges that failure to grant access may lead to delays in incident handling and the provision of corrections, or may render SAP unable to provide help in an efficient manner. The necessary software components must also be installed for support services. For more details, see SAP Note 91488.
- (iv) Establish and maintain an SAP certified Customer COE meeting requirements specified in Section 4.
- (v) Have installed, configured and be using productively, an SAP Solution Manager Enterprise Edition Software system, with the latest patch levels for Basis and the latest SAP Solution Manager Enterprise Edition support packages.
- (vi) Activate SAP EarlyWatch Alert for the Production Systems and transmit data to Customer's productive SAP Solution Manager Enterprise Edition system. See SAP Note 1257308 for information on setting up this service.
- (vii) Establish a connection between Customer's SAP Solution Manager Enterprise Edition installation and SAP and a connection between the Standard Support Solutions and

Customer's SAP Solution Manager Enterprise Edition installation.

- (viii) Customer shall maintain the solution landscape and core business processes in Customer's SAP Solution Manager Enterprise Edition system at least for the Production Systems and systems connected to the Production Systems. Customer shall document any implementation or upgrade projects in Customer's SAP Solution Manager Enterprise Edition system.
- (ix) To fully enable and activate the SAP Solution Manager Enterprise Edition, Customer shall adhere to the applicable documentation.
- (x) Customer agrees to maintain adequate and current records of all modifications and, if needed, promptly provide such records to SAP.
- (xi) Submit all incidents via the then current SAP support infrastructure as made available by SAP from time to time via updates, upgrades or add-ons.
- (xii) Inform SAP without undue delay of any changes to Customer's installations and any other information relevant to the Standard Support Solutions.

4. Customer Center of Expertise

4.1 Role of the Customer COE

The Customer COE is designated by Customer as a central point of contact for interaction with the SAP support organization. SAP recommends starting the implementation of the Customer COE as a project that runs in parallel with the functional and technical implementation projects.

4.2 Basic Functions of the Customer COE

The Customer COE must fulfill the following basic functions:

- Support Desk: Set-up and operation of a support desk with a sufficient number of support consultants for infrastructure/application platforms and the related applications during regular local working hours (at least 8 hours a day, 5 days (Monday through Friday) a week). Customer support process and skills will be reviewed in the framework of the certification audit.
- Contract administration: Contract and license processing in conjunction with SAP (license audit, maintenance billing, release order processing, user master and installation data management).
- Coordination of innovation requests: Collection and coordination of development requests from Customer and/or affiliates provided such affiliates are entitled to use the Standard Support Solutions under the Agreement. In this role the Customer COE shall also be empowered to function as an interface to SAP to take all action and decisions needed to avoid unnecessary modification of Standard Support Solutions and to ensure that planned modifications are in alignment with the SAP software and release strategy. The Customer COE shall also coordinate Customer's modification notification and disclosure requirements.
- Information management: Distribution of information (e.g. internal demonstrations, information events and marketing) about Standard Support Solutions and the Customer COE within Customer's organization.
- Remote Service Planning: coordination of remote service delivery with SAP.

4.3 Customer COE Certification

If Customer does not already have a certified Customer COE upon the Effective Date, Customer must establish a certified Customer COE upon the later to occur of the following: (i) within twelve (12) months after the Effective Date, or (ii) within six (6) months after Customer has started using at least one of the Standard Support Solutions in live mode for normal business operations. To obtain the then-current primary Customer COE certification or re-certification by SAP, the Customer COE undergoes an audit procedure. Detailed information on the initial certification and re-certification process and conditions, as well as information on the available certification levels is available in SAP's Customer Support Website at <http://support.sap.com/ccoe>.

5. Fees for SAP Standard Support

SAP Standard Support Fees shall be paid quarterly in advance and shall be specified in appendices or order forms under the Agreement.

6. Termination

- 6.1 SAP Standard Support may be terminated by either party with three (3) months' written notice (i) prior to the end of the Initial Term and (ii) thereafter, prior to the start of the following renewal period that covers a calendar year. Any termination provided in accordance with the above will be effective at the end of the then-current SAP Standard Support period during which the termination notice is received by the respective party. Notwithstanding the forgoing, SAP may terminate SAP Standard Support after one (1) month's written notice of Customer's failure to pay Standard Support Fees.
- 6.2 Notwithstanding Customer's rights under Section 6.1, and provided Customer is not in default of any obligations under the Agreement, Customer may select SAP Enterprise Support with three (3) months' notice to SAP either (i) with respect to all orders for support that are solely on a calendar year renewal basis, prior to the beginning of any calendar month; or (ii) with respect to all orders for support that are not solely on a calendar year renewal basis, prior to any monthly anniversary of the renewal date of such order. Such selection shall be stated by Customer in the notice letter and shall terminate SAP Standard Support effective with the commencement of SAP Enterprise Support. Any such selection shall apply to all Standard Support Solutions, and shall be on SAP's then-current terms and conditions for SAP Enterprise Support, including without limitation pricing. SAP and Customer shall execute an amendment or other document to the Agreement memorializing Customer's selection and SAP's then-current terms and conditions.
- 6.3 For the avoidance of any doubt, termination of SAP Standard Support or selection to enroll in another type of SAP Support Services by Customer pursuant to Support Services selection provisions under the Agreement shall strictly apply to all licenses under the Agreement, its appendices, schedules, addenda and order documents and any partial termination of SAP Standard Support or partial selection of SAP Standard Support by Customer shall not be permitted in respect of any part of the Agreement, its appendices, schedules, addenda, order documents or this Schedule.

7. Verification

To check the compliance with the terms of this Schedule, SAP shall be entitled to periodically monitor (at least once annually and in accordance with SAP standard procedures) (i) the correctness of the information provided by Customer and (ii) Customer's usage of the Solution Manager Enterprise Edition in accordance with the rights and restrictions set out in this Schedule.

8. Reinstatement

In the event Customer elects not to commence SAP Standard Support upon the first day of the month following initial delivery of the Standard Support Solutions, or SAP Standard Support is otherwise terminated pursuant to Section 6.1 above without exercising rights under Section 6.2 or declined by Customer for some period of time, and is subsequently requested or reinstated, SAP will invoice Customer the accrued SAP Standard Support Fees associated with such time period.

9. Other Terms and Conditions

- 9.1 The scope of SAP Standard Support offered by SAP may be changed annually by SAP at any time upon three (3) months' prior written notice.
- 9.2 Customer hereby confirms that Customer has obtained all applicable licenses for the Standard Support Solutions.
- 9.3 In the event that Customer is entitled to receive one or more remote services per calendar year, (i) Customer shall not be entitled to receive such remote services in the first calendar

year if the Effective Date of this Schedule is after September 30 and (ii) Customer shall not be entitled to transfer a remote service to the next year if Customer has not utilized such remote service.

9.4 FAILURE TO UTILIZE SAP STANDARD SUPPORT PROVIDED BY SAP MAY PREVENT SAP FROM BEING ABLE TO IDENTIFY AND ASSIST IN THE CORRECTION OF POTENTIAL PROBLEMS WHICH, IN TURN, COULD RESULT IN UNSATISFACTORY SOFTWARE PERFORMANCE FOR WHICH SAP CANNOT BE HELD RESPONSIBLE.

9.5 In the event SAP licenses third party software to Customer under the Agreement, SAP shall provide SAP Standard Support on such third party software to the degree the applicable third party makes such support available to SAP. Customer may be required to upgrade to more recent versions of its operating systems and databases to receive SAP Standard Support. If the respective vendor offers an extension of support for its product, SAP may offer such extension of support under a separate written agreement for an additional fee. If the vendor does not provide the support services required by SAP any more, SAP has the right to give reasonable notice of at least three months effective at the end of a calendar quarter of extraordinary and partial termination of the contractual relationship for support for the third party software concerned.

9.6 SAP Standard Support is provided according to the current maintenance phases of SAP software releases as stated in <http://support.sap.com/releasestrategy>.
