

Core Human Resources and Payroll

How can SAP® solutions enable you to change the game?

Core SAP SuccessFactors® HR solutions help companies build value-based relationships with everyone supporting the business. Companies can engage employees and external workers and help them contribute in new ways, using consumer-style tools and social HR. Core HR and payroll capabilities help ensure compliance worldwide and enable organizations to design, plan, and implement strategies for better business results.

What do SAP solutions help customers do?

Organizational management

Design and manage an agile organizational structure for successful business execution.

People and transactions

Engage employees and streamline HR processes.

Payroll processing

Cover the full spectrum of payroll needs on one platform in the cloud.

HR shared services

Deliver quality HR services efficiently to everyone in the organization.

Benefits

Improve employee engagement with benefits that matter most to them.

U.S. Benefits Administration

Comprehensive US benefits management, engaging employees while reducing costs

Contingent workforce

Unify workforce management and mitigate risks across all worker types.

What are the benefits?

Core SAP SuccessFactors HR and SAP SuccessFactors Payroll solutions enable HR to gain:

- Streamlined and smarter HR processes for ultimate efficiency
- Better support for global businesses through proven local compliance
- Greater impact on business results through well-planned and executed HR strategies

Why SAP?

Core SAP SuccessFactors HR and SAP SuccessFactors Payroll solutions provide an unmatched breadth and depth of capabilities, connect natively with SAP SuccessFactors Talent Management solutions, and integrate with industry-specific solutions on premise and in the cloud.

Key facts

+14% Productivity

With an increase in project completion*

-26% HR cost per transaction

When employee data is administered using a single system*
