

# SAP ICC Integration Scenario- SAP Integration Suite – PI Content Certification (IS-PI-CNT)

PUBLIC

# Introduction

- ❑ SAP Integration Suite offers capabilities and services that connect applications, processes, people, and devices. As the integration layer of SAP's Business Technology Platform, it simplifies integration and harmonizes processes.
- ❑ SAP delivers predefined integration content to facilitate the implementation process and thus reduce the TCO for the customer. This content includes integration flows, data structures and mapping programs, and is made available for customers through the [SAP API Business Hub](#).
- ❑ SAP Integration Suite provides a set of tools and applications that help you perform end-to-end tasks on development and deployment, packaging and publishing, accessing and editing the integration content.
- ❑ To ensure a standardized and harmonized development process for the implementation of content objects, SAP has initiated a certification program for SAP Integration Suite process integration content from ISVs.
