Snap HCM Solutions Suite Offers a Comprehensive Set of Role-Based Productivity Enhancements Specifically Crafted for Legal

Strategically-minded HR and IT teams require a centralized, user-friendly solution as the key to the success of their Human Capital Management (HCM) operations. Snap HCM solutions suite, built on SAP SuccessFactors, is a complete set of tightly integrated talent management solutions, robust workforce and diversity analytics and planning, plus a next-generation core HR solution all built with the legal industry's unique requirements in mind.

Snap HCM solutions suite provides accurate employee data, a robust learning management platform, seamless onboarding and recruiting processes, defined succession planning development, performance and goals frameworks, and a comprehensive analytics platform to meet all human resource needs. Deliver business strategy alignment, team execution, and maximum people performance in any firm, regardless of size.
