SAP C/4HANA, Clean ABAP, and a  
Chance to Win an SAP TechEd Show  
Floor Pass!

## In this Issue:

1. [SAP C/4HANA Foundation](#)
2. [Clean ABAP](#)
3. [Chance to Win an SAP TechEd 2019 Show Floor Pass](#)
4. [Create SAPUI5 Applications with Google Firebase](#)
5. [How to Create a Service Request in SAP Cloud for Customer Using an SAP Leonardo IoT Action](#)
6. [Community Mission & Badge Roundup](#)

### 1. SAP C/4HANA Foundation

In this [blog post](#), you'll get an overview of the recent announcement about SAP C/4HANA and what's to come. In [Introducing the SAP C/4HANA Foundation](#), SAP's Thomas Hertz compares SAP C/4HANA Foundation to a mixer in the music world. It's software that orchestrates and offers a unified view of all the various parts of a business.

## 3. Chance to Win an SAP TechEd 2019 Show Floor Pass

So, you want to go to SAP TechEd this year? Well, we want you to go too! We want to meet as many people as possible at these events — and we want SAP community members to reap the benefits of SAP TechEd participation. That's why the SAP Developer Relations team is again planning to award prizes that can help more people attend SAP TechEd. This year, we are once again [holding a contest](#) to give away hundreds of show-floor passes (which include access to lectures, but NOT Hands-on sessions).

## 5. How to Create a Service Request in SAP Cloud for Customer Using an SAP Leonardo IoT Action

SAP Leonardo IoT has recently introduced several features to provide to the user a more complete selection of functionalities, a more complete and simple integration with the other SAP products or with 3rd party services. One of the integrations that is now available with SAP Leonardo IoT is the Service Ticket creation in an SAP Cloud for Customer system.
