WhatsApp Integration with SAP S/4HANA, Leveraging SCP Neo Workflow, SAP Conversational AI, and Featured Missions on SAP Community

In this Issue:

- [1. WhatsApp Integration with SAP S/4HANA](#)
- [2. Leveraging SCP Neo Workflow from the SCP ABAP Environment](#)
- [3. SAP Conversational AI with SAP Solution Manager](#)
- [4. First Parts of SAP Fiori 3 Available with SAP S/4HANA Cloud 1908](#)
- [5. Featured Missions on SAP Community](#)

1. WhatsApp Integration with SAP S/4HANA

Whatsapp is one of most used messaging apps for business as well as personal use. But does integration with SAP S/4HANA make sense? Find out in this blog post as [Sudip Ghosh](#) explores integration using Twilio.

[Learn about Whatsapp Integration with SAP S/4HANA](#)

2. Leveraging SCP Neo Workflow from the SCP ABAP Environment

SAP's [Rich Heilman](#) recounts a recent experience integrating an application running on SAP Cloud Platform, ABAP Environment (aka Steampunk) with Workflow running on SCP Neo. In this blog post, Rich shares his learning experience with the community and shows how to leverage workflow from an ABAP class in Steampunk.

3. SAP Conversational AI with SAP Solution Manager

With Conversational AI, you can boost your revenue streams, improve the customer experience on desktop and mobile devices, and enhance operating margins company-wide. You can also use Conversational AI with other Technology like (Slack, Facebook Messenger or direct on a Webpage). Find out more in this blog post.

4. First Parts of SAP Fiori 3 Available with SAP S/4HANA Cloud 1908

SAP will deliver the SAP Fiori 3 innovations in a stepwise approach. With SAP S/4HANA Cloud 1908, the very first step becomes available to end users: the new Quartz theme as a successor of the Belize theme used with SAP Fiori 2.0, and the new shell header bar, which also replaces the viewport introduced with SAP Fiori 2.0.
