4. AS ABAP 752 SP04 – Developer Edition to Download

The ABAP application server on ASE 16.0 provides a great platform for trying out the ABAP language and toolset. It is extensively pre-configured with Fiori launchpad, SAP Cloud Connector, SAP Java Virtual Machine, pre-configured backend /frontend connections, roles, and sample applications.

This solution is intended for two groups of developers: Non-ABAP developers, who are interested in learning more about the ABAP language and development tools; and ABAP developers, who are interested in learning about version 7.52.

5. Here's Your Chance to Win an SAP TechEd 2019 Show Floor Pass

So, you want to go to SAP TechEd this year? Well, we want you to go too! We want to meet as many people as possible at these events — and we want SAP community members to reap the benefits of SAP TechEd participation. That's why the SAP Developer Relations team is again planning to award prizes that can help more people attend SAP TechEd. This year, we are once again [holding a contest](#) to give away hundreds of show-floor passes (which include access to lectures, but NOT Hands-on sessions).
