

Building the Intelligent Enterprise

Since 2009, with 600+ developers, the SAP Labs Paris has a strong Product Engineering team focused on new technologies

Top employer and great place to work

SAP Labs Paris is part of the SAP Labs Network. With 20 Labs in 17 countries, we drive thought leadership globally and in local ecosystems, enabling SAP and our customers to innovate, grow and succeed.

**We make
each
customer
a best-run
business**

“Our R&D strength in new technologies, combined with our openness to the startup ecosystem, provides a unique combination to help our customers build the Intelligent Enterprise.”

Erik Marcadé
SAP Labs Paris, Managing Director

What we do in the SAP Labs Paris

Analytics and semantics

Machine learning

Conversational AI

Intelligent robotic process automation

Big data research

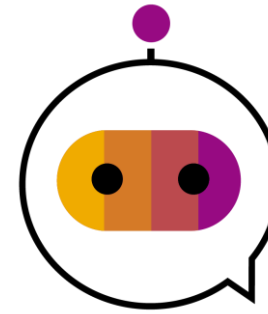

User design experience

Develop artificial intelligence and machine learning

We help you build great bots in minutes. Use our collaborative SAP Recast.AI platform to build, train, deploy and monitor intelligent bots for developers.

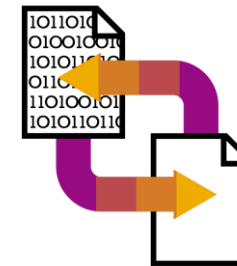

We empower business analysts with predictive algorithms and machine learning to assess future outcomes and steer business in the right direction.

Focus on business intelligence and big data

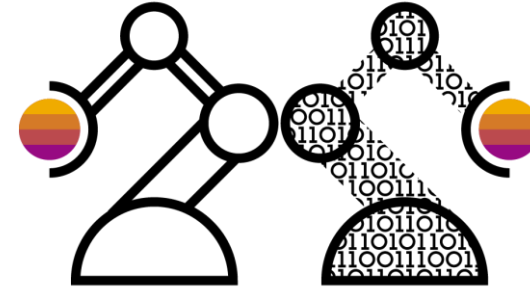

We empower business users with to understand trends and root causes with easy-to-use BI tools, from any data source, on any device.

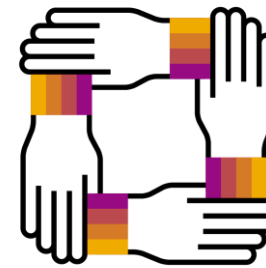

We innovate on top of logical data pipelines to assist “citizen data scientists” in the productive design and maintenance of high quality analytics.

Deliver robotic process automation and cloud services

We integrate Robotic Process Automation (RPA), machine learning, and conversational AI into one integrated solution to deliver the Intelligent RPA.

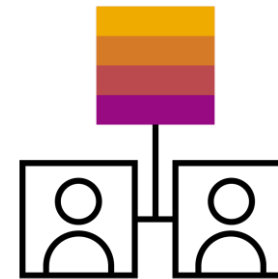

We help developer communities deliver software efficiently and reliably in the cloud and on-premise, by providing a set of global cutting-edge services.

Build user assistance, UX and recruiting job analysis

Our activities include user research, interaction design, visual design, user assistance, such as embedded help, video tutorials and documentation.

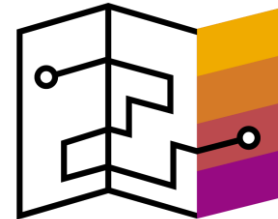

Talent is your company's greatest asset. We create products to help you recruit better. Check out our cutting edge recruiting applications.

Develop the next-gen finance and procurement software

We develop native feature on our SAP cloud platform to strengthen SAP's next generation software for consolidation, integrated to cloud and on-premise.

We support the move of procure-to-pay scenarios to our SAP cloud platform, and develop Central Invoice Management in the standard SAP offering.

Engage with customers and mentor social startups

USF. The SAP Labs Paris is actively involved in the French-speaking user group (USF) to listen to our customers and improve our products through continuous and open dialogue.

Per year: ~ 1,250 visitors.

Experience Business Center. Customers and partners can come to our SAP Paris Tower, discover new ideas, and see concrete innovation examples to help them transform their business into an intelligent enterprise.

Dreamzones. Customers and partners can book exclusive 2-day workshops with R&D teams for roadmap deep-dives & design thinking sessions. Per year: 6 events, 130 customers.

SAP4Good. SAP France Foundation and SAP Labs Paris partner with Makesense and Enactus to mentor social and ethical startups. Inspire to engage! Per year: 80+ meetings with 24 startups, 100 SAP Paris employees involved, 1,500+ hours of mentoring.

Co-develop our vision, strategy and get happy customers

Visionary Days. SAP Labs Paris and SAP Education welcome customers and partners to meet, discuss and work with our SAP Labs experts.

Strategy Sessions. Customers, partners and SAP employees can attend these sessions to discover our Intelligent Enterprise strategy.

Per year: ~20 sessions.

Customer Adoption. Customers and partners join us in SAP Labs Paris for deep-dive SAP Analytics Cloud product sessions including test and enablement workshops.

Per year: ~20 on-site workshops with 55+ customers/partners.

Learning. Position Paris as a reference site and develop the site to meet local demands. We have a 85% learning adoption.
