1. Build Your First Chatbot with SAP Conversational AI

SAP Conversational AI is an end-to-end chatbot platform combined with a powerful digital assistant designed for the enterprise. In this [guide](#), SAP's [Paul Pinard](#) walks you through how you can build an FAQ chatbot using the SAP Conversational AI platform. Then, check out the [tutorials on getting started](#) creating an SAP Conversational AI account. [Watch this demo](#) of our end-to-end bot building platform on how to build enterprise chatbots. Be sure to read [Conversational AI is Taking Our Jobs – Thank Goodness](#), by SAP's [Jeff Mills](#).

4. Member of the Month - February

Sharing your knowledge can really make a difference to the day-to-day work lives of other members, according to [Martijn van Foeken](#). He's proving it by making a difference every day in the SAP Community. Martijn started the year strong, recently receiving the [Skillful Solver](#) badge. Then again, he ended last year strong too, earning back-to-back Diligent Solver badges in the final quarter of 2019.
