How to Register for a Project

Find Projects

Browse the [full list](#) of projects open for registration and filter your Area(s) of Interest, categorized by Product, Industries and Others.

Register for Projects

Depending on the project type, the registration type might vary, but you will find detailed information on how to register in each respective project page. E.g. you will be able to “Register” via the respective button on the top left or in the text, or you might be asked to write an email to sign you up. The registration might be restricted to valid S-Users and Ariba Customers.

Follow Projects

In case you do not want to be actively involved in a project, but want to stay tuned about project outcomes, use the follow-button and you will receive an update on the project.
