Get the Most out of Your SAPUI5 App, Your Team Working from Home, SAP S/4HANA AnyPremise Upgrade, and Upcoming SAP Community Calls

Dear Readers,

The recent shift in all our lives has required an agility in work and home life that has proved challenging for many. It also means finding new ways to keep businesses agile and continue functioning in a new world. You'll find many resources through SAP, including free access to software and blogs defining everything from work at home status to tracking employee health through the new tag C19FREEACCESS**.** In this edition, be sure to read **Your Team Working from Home – Robotic Process Automation to the Rescue and SAP4Kids: Partnering to Help Families in Need Find Resources Nearby.** Look for more in upcoming issues.

In this Issue:

1. The Loading Evolution: Get the Most out of Your SAPUI5 App!

2. Your Team Working from Home – Robotic Process Automation to the Rescue
3. Let's Talk SAP S/4HANA AnyPremise Upgrade
4. PRMP Predictive Material and Resource Planning in SAP S/4HANA Step-by-Step Execution
5. SAP4Kids: Partnering to Help Families in Need Find Resources Nearby
6. Join Us for Upcoming SAP Community Calls
7. ASUG Think Tank - IT Operations
8. SAP Stammtisch Vienna - Online

1. **The Loading Evolution: Get the Most out of Your SAPUI5 App!**

Peter Muessig, Chief Development Architect of SAPUI5, demonstrates how to orchestrate the bootstrap of a stand-alone UI5 application to optimize its loading behavior in a step-by-step approach.

Get the Most out of Your SAPUI5 App!

---

2. **Your Team Working from Home – Robotic Process Automation to the Rescue**

While knowledge workers are adapting more easily to the new "work from home" paradigm, task workers often lack the structure, procedures and guidance they're used to in an office environment. On top of having to balance the needs of the job and the family at home, they're on their own managing difficult tasks without the direct help and expertise of co-workers and supervisors. Managers running operations in finance, procurement, HR, logistics, supply chain, marketing etc. now must adapt their work processes quickly to be productively operated by a remote workforce.

Your Team Working from Home – Robotic Process Automation to the Rescue

3. **Let's Talk SAP S/4HANA AnyPremise Upgrade**

Are you one of those early adopters who implemented SAP S/4HANA and are now starting to reap its benefits in terms of lower TCO, improved processes and performance, and increased business productivity? Or are you among those who are currently in the process of adopting SAP S/4HANA (whether it's a short sharp few months system conversion, or a multi-year business transformation program)? Regardless of the phase of SAP S/4HANA journey you are in, you recognize that having upgrades in the roadmap will position your organization to continue to get the most from its SAP S/4HANA investments. This blog post offers resources to help you define an upgrade strategy for your organization.

Let's Talk SAP S/4HANA AnyPremise Upgrade

---

4. **PRMP Predictive Material and Resource Planning in SAP S/4HANA Step-by-Step Execution**

pMRP helps you to identify potential capacity issues and to evaluate possible solutions as early as possible based on a simplified requirements plan using a simplified material requirements algorithm. As a result of the simulation, production planners are prepared to take decisions on changed conditions. In SAP ECC and earlier releases of S/4HANA, Long-Term Planning (LTP) can be used to simulate MRP and allow us to analyze the results for capacity situation, all the levels of semi-finished products and raw materials.

Predictive Material and Resource Planning in SAP S/4HANA Step-by-Step Execution

5. **SAP4Kids: Partnering to Help Families in Need Find Resources Nearby**

In response to COVID-19, SAP has partnered with GENYOUth (a US nonprofit for child health and wellness) to create two web-based applications to crowd source information around free resources available to families and visualize those resources through an easy

to use, interactive map. Experts from several SAP locations teamed up to develop an early prototype, and evolve the app into a tool for the community:

- The Assistance Entry Form allows organizations (schools and nonprofits) to quickly submit resource information for families. Click here for Application.
- The Resource Locator is an easy-to-use interactive map to help families find the resources they need nearby.

SAP4Kids: Finding Resources Nearby

7. ASUG Think Tank - IT Operations

May 4, 2020
User Group Event

ASUG invites you to participate in a daily dialogue with your peers. In a time of "social distancing," the need to connect with peers to talk through business challenges has never been more important. Join us each day at 4 p.m. ET / 3 p.m. CT for an hour of virtual dialogue on the topic of the day. These conversations are open to all ASUG members, and will be facilitated by a member of the ASUG staff.

ASUG Think Tank - IT Operations

8. SAP Stammtisch Vienna - Online

May 7, 2020
SAP Stammtisch

SAP Stammtisch Vienna - Online

The SAP Stammtisch Vienna is a virtual meeting to be connected with your SAP Community peers! Be part of this informal meetup, if you are interested in exchanging about SAP topics. It's open for everyone: developers, consultants and architects.
