- [2. SAP Business Technology Platform Video Series – How it all Comes Together](#)
- [3. How to Manage all the Work at Home](#)
- [4. Free Covid-19 SAP SuccessFactors Extension for Tracking Employee Health Information](#)
- [5. How to Add Semantics to a SELECT](#)
- [6. Join Us for Upcoming SAP Community Calls](#)

## 1. SAPUI5 Framework and UI5 Web Components

SAPUI5 has been SAP's JavaScript framework and leading UI technology to build SAP Fiori applications for many years. With web development rapidly changing, new web standards emerging, and the JavaScript ecosystem evolving, SAPUI5 is keeping pace to build future-proof and enterprise-grade web applications. In this [blog post](#), SAP's [Peter Muessig](#), Chief Development Architect of SAPUI5, clarifies fundamental questions about the UI5 Framework – the foundation of SAPUI5 and OpenUI5 – and describes the relationships to the UI5 Web Components.

## 2. SAP Business Technology Platform Video Series – How it all Comes Together

The SAP Business Technology Platform – in a nutshell – includes products and solutions such as SAP HANA, SAP HANA Cloud, SAP Cloud Platform, SAP Analytics Cloud, SAP Data Warehouse Cloud, and SAP's intelligent technologies. [Juergen Mueller](#), CTO of SAP, covers how the Business Technology Platform helps customers and partners to simplify integration with the SAP Cloud Platform Integration Suite.

#### 4. Free Covid-19 SAP SuccessFactors Extension for Tracking Employee Health Information

As we all continue to manage the pandemic fall out, iXerv has created a free SAP SuccessFactors extension to enable you to track and manage employee health. How does it work? The Extension provides a portlet for Employee Files, a Home Page tile, and a report that can be used for tracking COVID-19 related information for each employee. Our extension package includes a report that provides aggregated information about the health of employees, as well as which employees have not yet completed the information.

#### 5. How to Add Semantics to a SELECT

[Michael Keller](#) shares his sample source code on how he reworked the SELECT statement. The objective was to show how the code can quickly make clear what is meant by the developer.
