The Future of Robotic Process Automation, SAP Community Coding Challenge Nr.2, and SAP NetWeaver 7.5 – Transitioning to SAP S/4HANA

Dear Readers,

You may have noticed that we feature a new topic each month on the [SAP Community homepage](#). For the month of May, we're covering Intelligent Robotic Process Automation with some blog posts including discovering the latest enablement opportunities and the future of RPA. In this edition, you'll also find blog posts on transitioning to SAP S/4HANA from NetWeaver 7.5, not to mention our upcoming Community Calls.

Catherine LaCroix
Editor

In this Issue:

- [1. SAP Intelligent RPA – The Future of Robotic Process Automation](#)

2. [SAP Community Coding Challenge Nr.2](#)
3. [Maintenance Strategy for SAP NetWeaver 7.5 – Transitioning to SAP S/4HANA](#)
4. [How to Configure a Custom Fiori App for SAP Transaction Code \(On-Premise\) on Central Hub](#)
5. [What You Should Know about Controlling in SAP S/4HANA](#)
6. [Upcoming SAP Community Calls](#)

1. **SAP Intelligent RPA – The Future of Robotic Process Automation**

SAP Intelligent Robotic Process lets you easily design, configure and run software robots to automate any business processes that involve different tools and data among various applications and landscapes. Read the [blog post](#) on how to discover the latest enablement opportunities for SAP Intelligent RPA. Also, learn about the status of RPA, where it came from and where it is heading in a world of automation, digitalization, and artificial intelligence.

[The Future of Robotic Process Automation](#)

2. **SAP Community Coding Challenge Nr.2**

In this second SAP Community coding challenge [DJ Adams](#) takes a short departure from the standard technology roots toward where many of us are already heading (and indeed many of us are already there in some shape or form). And that is the age of Web application UIs and cloud based backend services.

[Take the SAP Community Coding Challenge!](#)

3. **Maintenance Strategy for SAP NetWeaver 7.5 – Transitioning to SAP S/4HANA**

SAP has decided to align the maintenance strategy of SAP NetWeaver 7.5 with SAP Business Suite 7 for a safe transition to

SAP S/4HANA. Product strategy of SAP BW/4HANA is fully in line with SAP S/4HANA.

[SAP NetWeaver 7.5 – Transitioning to SAP S/4HANA](#)

4. How to Configure a Custom Fiori App for SAP Transaction Code (On-Premise) on Central Hub

Standard Fiori apps are not always available for some transaction codes or reports. Or business users would like to access the custom transactions/reports via Fiori Launchpad. In this blog post, [Ravi Kumar Chikatla](#) explains how to build custom Fiori apps.

[Configuring a Custom Fiori App for SAP Transaction Code](#)

5. What You Should Know about Controlling in SAP S/4HANA

With the advent of SAP S/4HANA many things are changed in controlling. Here, you'll find a list based on SAP S/4HANA 1909 (since the product is continuously evolving this list is not exhaustive). In the first part of this blog post, you'll learn about universal journal, real-time Integration, cost elements, and more.
