Data Fabric: Building Agility and Resilience into Your Data Management Practice, Upgrading SAP S/4HANA Anypremise, and What's New on the ABAP Platform

[Subscribe to SAP Community Voice](#)

Dear Readers,

This month the featured topic on the [SAP Community homepage](#) is SAP Data Intelligence, which lets you extract value from your distributed data and deliver relevant insights to users

Also, we just announced a [new search experience](#) on the community, so be sure to test it and let us know your thoughts.

We've also launched the [SAP Community store](#). Read more in this edition.

Regards,

Catherine LaCroix

Data Fabric: Building Agility and Resilience into Your Data Management Practice

An Enterprise Data Fabric is an emerging approach to data management that delivers a unified, intelligent, and integrated end-to-end platform. This approach supports new and emerging use cases and is proving to be a successful way to wrangle complex data architectures. Also, be sure to read [SAP Data Intelligence 3.0 Walkthrough](#).
