3. Announcing SAP Analytics Cloud Add-in for Microsoft Office

Many companies face ongoing challenges with their data. Without a single source of truth, those challenges never find resolution. But many still use the Excel interface every day. Why not have the best of both worlds? Introducing the new **SAP Analytics Cloud**, add-in for **Microsoft Office**. We have partnered with Microsoft to co-innovate on the Office 365 suite, opening a playground for you to plan, analyze, and simulate your data.

4. Countdown Background for the Launch of SAP Cloud ALM

SAP Cloud ALM celebrates its launch into the space of multiple expanded capabilities. Accessible from anywhere and always up-to-date, SAP Cloud ALM is home-office-friendly. SAP Cloud ALM is one of the three pillars of application lifecycle management (ALM) solutions. It joins the flagship on-premise and hybrid solution SAP Solution Manager, as well as the high-volume focused solution SAP Focused Run.

5. The Value of Customer Communities in Disruptive Times

Communities can help our customers, partners and the wider ecosystem ensure business continuity in uncertain economic times. Communities are the one-stop-shop for content, tools, resources and knowledge, connecting them with their peers and with SAP subject matter experts to exchange information about product solutions and best practices. The customer communities are 24/7 resources, that result in saving time, increasing customer satisfaction and decreasing support tickets, being the most efficient and fastest channel to address how-to-questions and receive answers.
