Echelon Solutions Group

October 2020

SAP S/4 Financial Bundled Solution

Echelon Solutions Group has created a **Bundled Financial Implementation Package** that utilizes proven **S/4 Implementation Best Practices**, a fixed **12-week implementation timeline** and cost-effective implementation. This bundled offering is ideal for new acquisitions, start-ups, companies with less complex operations as well as mid-market organizations.

(We also have the ability to offer various combinations of Licensing, Support and Implementation bundles to make this as simplistic to the end customer as possible.)

Benefits of this Financial Bundle include:

- Low Risk Implementation
- Fast Implementation
- Low Cost Implementation
- Leveraging Remote Resources
- Fast ROI
- Immediate Financial Data and insight into your financials
- S/4 introduction
- Licensing, Implementation and Support Costs Up Front
- Solid Financial foundation that will support future growth plans

Assumptions

- Only SAP Best Practices / standard functionalities will be implemented, with no customization
- S/4 standard reports/analytical apps will be delivered as part of this project
- Any deviation from the standard SAP S4HANA best practices will go through a change order process
- Customer will procure relevant hardware and licenses before the start of the implementation
- No integration of SAP S4HANA with any external systems except for an Interface to current back end solution
- Historical transactional data will not be uploaded in the new system
- Echelon will use templated Financial bundle rollout
- Standard delivered training/testing template documents will be delivered, but the actual training will be the responsibility of the customer
