Making the Software Industry More Inclusive, Unveiling SAP Intelligent RPA 2.0, and How COVID-19 Has Reshaped IT Learning

Subscribe to SAP Community Voice

Dear Readers,

It's SAP TechEd season! While we're not getting together as usual, we're still planning TechEd this year. We're taking SAP TechEd Online. Join us December 8-9.

But first, we've kicked off the season with not only Devtoberfest, but calls for SAP Community Talks and the SAP Community Trivia Contest.

Read all about it in the Community News section below.

Regards,

Catherine LaCroix
Editor

Making the Software Industry a Little More Inclusive

As part of SAP's commitment to social justice and equality, we acknowledge and take action toward insensitive language used in the software industry. Unconscious bias contributes to everyday discrimination. In this blog post SAP executive board member and CTO, Juergen Mueller defines how SAP will replace insensitive terms with inclusive language that is free from expressions or words that reflect prejudice.

Using Intelligent RPA 2.0 – Hyperautomation for Everyone

The RPA market is still rising. Even accelerated by the global pandemic, business process automation and task automation are becoming a standard asset of today's enterprise IT landscapes. In this blog post, Sebastian Schroetel reflects on the relevance of low-code/no-code tooling to empower business users to create customizable solutions that require little to no programming knowledge.

My Home SAP Development Setup - 2020

Turn Learning into Achieving: How COVID-19 Has Reshaped IT Learning

Today's media consumers adopt new manners of media consumption and adapt to significant changes introduced by COVID-19. According to Jan Meyer, SVP, Head of Business Portfolio Management, SAP Knowledge and Education, IT learning must also shift its approach to meet the needs of individuals.

Read more

These days developers and functionals have so many useful tools at their disposal that development and solutioning in SAP is easier than ever. That being said, the wide variety of tooling available can also be a bit daunting. In this blog post, Brandan Caulfield walks you through his setup (in a video) to help simplify things a bit.
