CTO Q&A – Session Follow-up, SAP Workflow Management – What's New, What's Coming, Making Your SAP Integration Serverless, Tutorials, and Upcoming Community Calls!

[Subscribe to SAP Community Voice](#)

Dear Reader,

In this edition, we feature the [follow-up blog post](#) to SAP CTO Juergen Mueller's Q&A session where he answers questions that were not addressed in the call.

The call highlighted more features around the RISE with SAP, SAP Business Technology Platform announcement. If you missed the call, you can [watch the replay here](#).

Best regards,
Catherine LaCroix
Editor

Q&A – Session Follow-up

SAP CTO Juergen Mueller follows up in this blog post to answer some of the questions that remained at the end of the call. [RISE with SAP](#) is a single offering that provides a path to the Intelligent Enterprise for every customer, independent of starting point or complexity. The holistic approach will help companies transform their business.

Making Your SAP Integration Serverless

Growing demands of rapid digital interactions and expanding the ecosystem means IT departments will need to spend more time eliminating silos, bridging between services. While handling the ever complex, immense amount of data in real-time.

SAP S/4HANA Transformation with Dual Maintenance

With this blog post you'll get an overview about the topic S/4 HANA Transformation with Dual Maintenance and Retrofit. During the project period, there are two landscapes that have to be maintained at the same time. This is a very common use case for most of the SAP customers.

Tutorials & Missions

Learn how to add S/4HANA content into a SAP Launchpad site

The SAP Launchpad service of SAP BTP is a way to create a centralized SAP Fiori launchpad site for all your company's business applications. [Take this advanced tutorial and earn a badge!](#) If you're just getting started, take the following tutorials first:

[Deliver Your First SAP Fiori Launchpad Site](#), a 35-minute quick look at the most basic capabilities of the SAP Launchpad service.

[Deliver Your First SAP Fiori Launchpad Site \(with integrated apps\)](#), a much more comprehensive, 3-hour tutorial (but still very easy to do) on more extensive capabilities, such as integrating Gateway or custom SAPUI5 apps into your site.

Upcoming Community Calls

March 25

[Explore SAP solutions of the suite quality "coordinated lifecycle management"](#)

With the suite quality "coordinated lifecycle management" SAP plans to accelerate implementation projects and reduce manual integration configuration effort with harmonized provisioning, setup and operations, and monitoring solutions.

[Stefan Jakobi](#), Product Manager, Cloud & Lifecycle Management @SAP SE and [Carsten Puschke](#)

Director, Cross-Product Architecture Product Management @SAP SE

March 31

[Predict missing Master Data & Transactional Data using SAP AI Business Services](#)

In this webinar, we will look at how Data Attribute Recommendation Service, which is part of the SAP AI Business Services portfolio, can help automate such business scenarios.

[Satheesh Ilu](#), Director - Product Management, SAP AI Business Services

April 1

[How to Establish a Consistent Identity Access Management](#)

In this session we will have a look at SAP's IAM solutions Identity Authentication and Identity Provisioning that support this integration journey.

[Marko Sommer](#),

Product Manager SAP Cloud Identity Services, SAP S
