

Headless Commerce

The future of commerce in a package

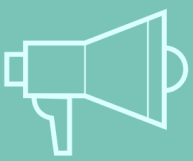

SAP® Qualified
Partner-Packaged Solution

With this package we bring you:

- a scalable, future proof platform, which works with your existing SAP landscape
- commerce anytime, any device
- a seamless customer journey, to increase online sales
- faster time to market, resulting in an accelerated time to value

the elision's headless commerce package?

Discover the **endless flexibility** of a **headless commerce solution**. A decoupled storefront allows you to create the true **omni-channel experience**, without the need of managing separate platforms. Take **full control** over your **customer journey**, with **design flexibility** built on top of the strong SAP Commerce Cloud solution. Combining the solution with the already available **prepackaged content** for **integrations** creates the perfect mixture for success.

hear what our customers have to say

Ethnicraft

"Choosing a platform is one thing (it has to fulfil your needs) but it's also important to choose the right partner. After all, we chose a package solution that allows us to grow in the future."

- M. Van Maldeghem, Operations Director Ethnicraft

"Elision has developed an efficient, feasible and affordable implementation process for SAP Commerce Cloud" - S. Hoegaerts, CIO Van Marcke

all the value in one place

Analysis of your needs based on a fit-to-standard approach. We discover how we can help you build a commerce solution that will take your organisation to the next step.

- clear insight in your needs
- value based delivery plan
- clickable prototypes

Using Agile we bring **transparent delivery** to the table. Using short feedback loops, we bring you insight and steering possibilities. Together we build a plan for releasing the right product to the correct market. On-boarding your company and customers is one of our strong suits.

Using **prepackaged content**, we deliver future proof integration, based on your needs.

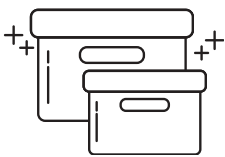

- ERP integrations – product, price, inventory, customers, category
- OMS Integrations – order export, order status, delivery tracking
- Third Party – payment service providers, marketplaces, analytic platforms, tax, ...

At the center of this, **the shop you love and need**. A solution made to last. We help you in the digital transformation and build a solution to support your organisation in the next steps of growth.

After care. We aim to build a lasting partnership, which means we do not leave you to fight of the dark after delivery. We stay to help you grow your solution and organisation, keeping your shop to standards and your organisation inspired. Offering services like 24/7 support, continuous development and updates about the latest news.
