

# boost your Field Service & Repair

For ambitious Field Service & Repair companies like home health-care providers, enterprises leasing industrial equipment, property maintenance companies, service hubs, garages.

## CHALLENGES

- Strong integration of the FS&R activities with all necessary functionalities (sales, purchase and planning, inventory management, finance, HR, CRM and aftercare) on one platform.
- Simple planning of service technicians with a visual and user-friendly planning board.
- An all-inclusive and user-friendly mobile application for service technicians that can be consulted online and offline.

## BENEFITS

- Fast and cost efficient implementation
- Boost operational excellence with best practices
- Better informed decision making across the complete process chain

Implement ERP template	Real-time insights in all domains	Industry best practices
Fast and cost efficient with proven project approach	Better informed decision making across all projects	Knowledge to boost operational excellence
