A Packaged Ready-to-Run Solution to Lift Your Existing ERP System to SAP S/4HANA®

The system conversion is the most popular transition path to move your existing ERP system to SAP S/4HANA. NTT DATA Business Solutions has supported many system conversion projects since SAP announced the end of SAP ECC maintenance by 2027. If you are currently running an ERP 6.0, EHPx, Any DB or SAP HANA DB, this is the natural move forward to migrate your system to SAP S/4HANA in the most efficient and modern way.

A Packaged Solution for Your Move

Based on our long-term experience we developed a solution which enables you to convert your system in the most efficient and modern way. it.S/4HANA conversion^{R2R} makes it possible to take an exact 1:1 move from your hosted or onPrem ERP system to SAP S/4HANA. The target platform can optionally be ordered.

Your Advantages

- Project time of 10 to 22 weeks only
- Most activities done from remote (up to 100%, Covid-19 proven)
- Two package options: Sandbox Conversion or Full System Conversion
- Sandbox or full platform package, ready designed for an immediate start
- Conversion strictly following SAP Conversion Guide
- All relevant pre- and post-conversion activities included
- Usage of state-of-the-art SAP tools (Maintenance Planner, SUM, DMO, SAP Readiness Check)
- Additional NTT DATA Business solutions accelerator toolkit
- Smoke test after technical conversion included, based on BPML or transaction list

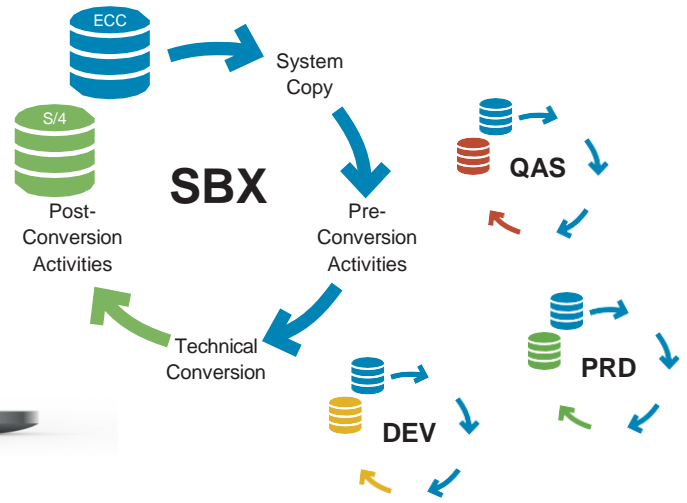

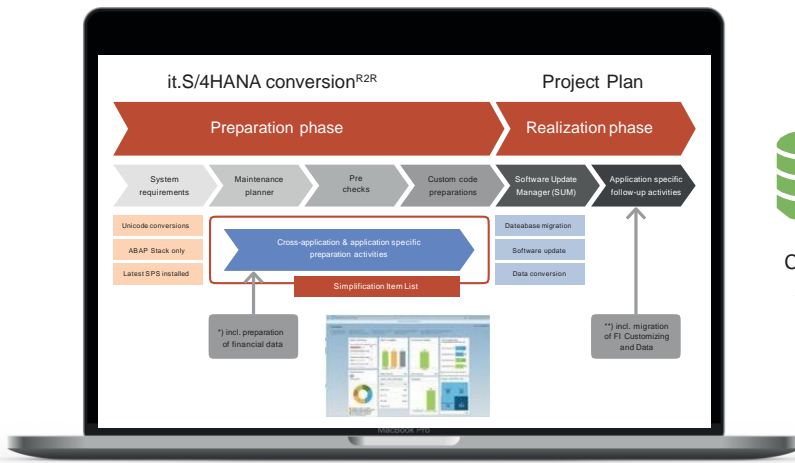

Offering Includes

- SAP Readiness Check execution and evaluation
- OSS notes installation, required for conversion
- CVI (Customer Vendor Integration) basic option – no redesign for Business Partner Model
- New GL migration through system conversion tools (classic GL functionality)
- SAP ECC EHP7 or higher (other EHP at additional cost)
- 2 or 3 system landscape, 1 client per system
- Up to 5 company codes
- Up to 10 years of finance documents
- Custom Code Remediation up to 200 objects
- SAP ECC core modules: CO, CS, FI, IM, LE, MM, PM, PP, PS, QM, SD, WM
- All mandatory Fiori Apps¹ (app establishment, frontend server setup and configuration not included)
- All necessary configuration for pre- and post-conversion activities
- Complete documentation and presentations
- Weekly update calls (MS Teams)

Higher Volume?

Please ask for extended options. We are offering additional services and upgrade packages.

¹Mandatory Apps are Fiori Apps where there is no equivalent GUI transaction available
